**Thursday September 22<sup>th</sup>**

**Dendro-archaeology**

*From Chronology to Trade and Maritime  
Traffic*

**Seminar with Aoife Daly (KU) & Tilo  
Schöpfbeck (Schwerin) with comments  
by Rainer Atzbach – AU Moesgård,  
Foredragssalen 14.00-17.00 (4206-139).**

Timber structures found archaeologically or preserved in historic buildings provide us with the basic material for dendrochronological analysis. Not just to achieve a precise chronological framework for our built heritage; but also to allow identification of the region of origin of the trees used. Using an extensive dataset of terrestrial

timber  
structu
