Sandbjerg writing retreat

Monday 28 November – Friday 2 December 2016

Website: <http://www.sandbjerg.dk/en/>

We are glad to announce that CT will be on the road again. This time we organize a CT writing retreat at Sandbjerg Gods. In a busy working context, the challenging part for researchers is often to find time and peace to concentrate on the writing and reading processes. The program is meant to support each person's/research group's creative and academic working process. We hope this is a valuable model for facilitating research work and research collaboration at the department.

Program:

Writing & research sessions: You can choose between working on your own, take part in a 'Shut-up-and write' session with others (work in the same room & with a chair leader), collective writing, or, research group meetings/workshops.
